《〈共产党宣言〉与新时代》

Manifesto of the Communist Party and the New Era

This book starts with the development of capitalism and the rising of workers' movements in western Europe. Its chapters are arranged in time order. It analyzes the historical background and meaning of the publication of Manifesto of the Communist Party, compares three different versions of the Manifesto, explains the Manifesto's theoretical contribution to the development of scientific socialism and its response to the capitalist class's reproach about socialism.

《盛世读王维》

Reread Wang Wei's Poems in This Flourishing Age

Using the form of special subjects, this book interprets Wang Wei and his poems from ten aspects. The ten aspects have different emphasis, but also correlate with each other. The book introduces the author's new ideas and thoughts about Wang Wei based on his studies. It mainly explores and explains Wang Wei's natural ecological perspective, life value perspective, and his thoughts on human and nature co-existence. Readers can have a better understanding of Wang Wei's moral integrity and life spirits.
