### 《构建人类命运共同体》

#### *Building a Community of Shared Future for Mankind*

Author: Chen Yue

ISBN: 978-7-300-26359-5

Focusing on the core of Xi Jinping's diplomatic thought of building a community of human destiny, this book explores China's solutions to the problems of world peace and development. The book holds that the idea of building a community of human destiny has profound strategic vision and distinct Chinese characteristics. Leading the reform of the global governance system and promoting the construction of Belt and Road is a major practical innovation of Xi Jinping's diplomatic thought of socialism with Chinese characteristics and a systematic project of building the community of human destiny.

### 《中国人的理想与信仰》(增订本)

#### *Chinese Ideals and Beliefs*

Author: Yu Wenli

ISBN: 978-7-300-24812-7

The main content of the study is that the Chinese people, as a special group nurtured by Chinese civilization, cherish their ideals and beliefs in the long-term historical evolution, social production and life practice. From the perspective of the interaction between cultural psychological structure and social development, the study compares and divides history and reality. Focusing on subjects such as the generation and shaping of ideals and beliefs, it depicts the real situation of the ideal world and belief world of Chinese people.
